

HOW WAS THE EVENT

My name is Josephine Bakita? I am 12 years old. I am a student in class five. Africa is where people enjoy themselves. When the climate changes it change it change four seasons.

To my honour I am happy in this country of Africa when Lethair increases my happiness about the Nguvu Edu sports. I started to know many things.

In the first event it was so good. Mr Lethair was the one who came with this idea. nobody else. He taught us about tolerance, discipline, respect and teamwork. First of all I start with respect is the way of obeying our elders. Secondly is teamwork is the way of working together on problems. Thirdly is the way of collecting garbage so that we can see our environment is clean. every day people are active and helping each other.

My honour is to say I thank mr Lethair and all the sponsors who is main of happiness.

I wish all best in the 4th event.
