

How Was THE EVENT?

My name is Harry Abrasis? I am 15 years old.

I am a student in form one. Africa is where people enjoy themselves. When the climate changes it change four seasons.

To my honour I am happy in this country of Africa. When Lothar increases my happiness about the Nguvu Edu Sports. I started to know many things.

In the first event it was enjoyable. It took 2 weeks to finish. The event was so good. Mr Lothar is the one who came with this idea nobody else. He taught us about tolerance, discipline, respect and teamwork. first of all I start with respect is the way of obeying our elders. Secondly is teamwork is the way of working together in problems. Thirdly is the way of collecting garbage so as to see our environment is clean.

Every day people are active and helping each other.

The second event started at 20th of April. It was wonderful day people were very playful.

The days were so happiness and gladness. I myself I was very waiting out about Lothar's speech. Other people were very enjoying and to see people playing other activities.

In all event it was wonderful and it was more activity done there. The event was much of fun and enjoyable like no other.

Last but not least I myself I thank Mr Lothar who have done the people change their life.

In this days people are changing and going on with their activities. Even Mr Lothar change the street boys to change their behaviour and activities.

My honour is to say I thank Mr Lothar who is a man of happiness.

I wish all best in the 3rd event.
